

The Imitator

The Imitator is a story of a clumsy young alien who gets sentenced to live one year on earth in the body of a 13 year old girl. Trapped in a pathetically flawed and hopelessly weak life-form called Alex, XL2000 must learn to navigate through the teenage nuances of living in a family pack and going to high school. Armed with high intelligence but missing a few particles the mistake ridden XL2000 is sent learn how human emotion works to better herself and her planet. Feeling emotion for the first time confuses and challenges XL (Alex) to make life-form choices that ultimately rock the world as she knows it.
