

Mechanical and Marine Engineering Science Specially Written As a Handbook to the Board of Trade Examinations for Extra-First-Class Engineers (Classic Reprint)

Mechanical and Marine Engineering matters. In the choice of subjects the Author has been guided more particularly by the requirements of the Marine Engineer, but with a few exceptions the subjects dealt with are not exclusively marine. The selection has arisen out of the Author's experience in assisting candidates, preparing for the Board of Trade Examination, for Extra-First-Class Engineers. The knowledge required for these examinations covers an interesting and useful portion of the ground usually included in Mechanical and Marine Engineering; and upon these lines the present work has been written, in the hope that it may be acceptable to readers, who are not necessarily aspiring to Examination Honours, as well as to those who desire a Handbook for the Extra Examination.

February (Typographical errors above are due to OCR software and do not occur in the book.)

About the Publisher: Forgotten Books is a publisher of historical writings, such as: Philosophy, Classics, Science, Religion, History, Folklore and Mythology. Forgotten Books Classic Reprint Series utilizes the latest technology to regenerate facsimiles of historically important writings. Careful attention has been made to accurately preserve the original format of each page whilst digitally enhancing the aged text. Read books online for free at www.forgottenbooks.org
