CRS Report for Congress: Energy Efficiency and Renewable Energy Legislation in the 109th Congress: February 9, 2006 - RL32860

Congressional Research Service: The Library of Congress, Fred Sissine

This report reviews the status of energy efficiency and renewable energy legislation introduced during the 109th Congress. Action in the first session focused on omnibus energy policy bill H.R. 6, omnibus transportation bill H.R. 3, and several FY2006 appropriations bills. The enacted version of the Energy Policy Act of 2005 (P.L. 109-58, H.R. 6) authorizes or reauthorizes several energy efficiency and renewable energy programs. It also establishes several new commercial and consumer product efficiency standards, sets new goals for energy efficiency and renewable energy in federal facilities and fleets, broadens the Energy Star products program, expands programs for hydrogen fuel cell buses, extends daylight savings time, and sets a renewable fuels standard for increased use of ethanol and biodiesel. Further, it extends the renewable energy production tax credit (PTC) for two years, but it does not include Senate-proposed provisions for oil conservation, a renewable portfolio standard (RPS), or a broader range of legislated equipment efficiency standards. The enacted version of the Transportation Equity Act (P.L. 109-59, H.R. 3) has provisions for clean (renewable) fuels, energy conservation, and advanced vehicle technologies. Specific sections include 1113, volumetric excise tax credit for alternative fuels; 1121, high occupancy vehicle (HOV) facilities; 1307, magnetic levitation ...
